PROCUREMENT POLICY

Policy Statement

Purpose
This Policy sets out UNSW Procurement principles concerning the acquisition of goods, services, infrastructure and capital works and enables UNSW Strategy 2025 by ensuring that Procurement provides guidance to obtain value for money, provides easy-to-use tools and access to arrangements with suppliers to simplify the Procurement process while complying with the Procurement principles.

Activities include but are not limited to:
- identifying the need to procure
- selecting suppliers
- contracting and placing orders
- managing Contracts and suppliers

This Policy must be complied with by all UNSW Staff members regardless of their level, seniority or scope of authority, who are involved in, or impacted by, Procurement decisions and processes at UNSW. UNSW Staff listed as Financial Delegates are responsible for ensuring compliance with this Policy and will act as the representative making the commitment on behalf of UNSW.

This Policy applies to the acquisition of goods, services, infrastructure and capital works which include but are not limited to the following categories or circumstances:
- Information and Communications Technology (ICT)
- Estate management and construction
- Research/teaching equipment and consumables
